VAN'S HALL · DELTA, UTAH

- This unique dance hall will accommodate over 400 couples. The decorations, including the floor, the chandeliers, the animals and the miniature Temple were all made by hand by the former owner—the late Mr. Wm. Van De Vanter—over 1000 lbs. of hand cut mirror being used therein.
- The color and lighting effects are unsurpassed in any other hall. The building is air-conditioned through a large home-made cooler.
- The center ball contains over 1000 pieces of mirror and weighs about 500 lbs. It is revolved by means of a hand-made motor-driven airplane.
